

PLANT A SEED

The first seeds were sown over 40 years ago when some faithful men and women believed in the ideals of educating children in a Christ-centred environment. Throughout its history, Grace Christian School has established strong roots in the Island's educational landscape and continues to develop the leaders, thinkers, and innovators of tomorrow.

To honour our past and plan for our future, GCS has established our Plant a Seed, having raised over \$700,000 in just 4 years. Based on current demands and our vision for the future, Grace Christian School has embarked on an ambitious capital campaign that will continue to provide unprecedented access to an exceptional 21st-century, Christ-centred education for all families, regardless of their financial means.

Every student will spend more than 16,000 hours in school and be influenced by peers, teachers, and curriculum.

Because of this, we are seeing both our local and global community desiring to partner with us in their child's educational journey. Our enrollment continues to increase school-wide as families recognize the quality of education received at Grace Christian School.

Your gift to the Plant a Seed fund will allow GCS to continue investing in the future success of our students in the disciplines of academics, athletics, technology, the arts, music, and English-language acquisition. As we commit to expanding our physical footprint to meet the demand for our school and programs, your continued support to the Plant a Seed Fund is sincerely appreciated.
